

Our Core Values

Integrity

Power is gained by sharing knowledge, not hoarding it. We continue to earn the trust of our colleagues, our community, our donors, our Network, our Dreamers and their families through open dialogue, impactful results and accessibility.

Community-Centered

Do nothing about me, without me. We are not observers, but active members of our community. We participate, we listen, we learn, we support and we serve. All Dreamers, their families, their neighbors, their homes, their stories guide our work.

High-Impact, High-Quality

The stakes are high. So shall be the quality. The unfair distribution of resources due to socio-economic status has had an overwhelming impact on our society. Our success has the power to shift conversations, bridge communities and make real change.

Adaptability

As change happens, change HAPPENS. We strategically check in with ourselves, coworkers, Dreamers, and all stakeholders to request feedback and assess progress towards our goals.

Partnership

We believe "Nothing of significance was ever achieved by an individual acting alone." Our partnerships are our greatest strength. We create, work through challenges and celebrate success together.

Social Justice

We stand against racism and all forms of oppression. To increase the strength and power of the communities with which we work, we must recognize and challenge existing systems while pursuing outcomes based on equitable justice.
